PROFILE

By analyzing the problems I encounter, I can clarify and propose coherent solutions. I can explore new technologies on my own and test them without hesitation. Besides being a front-end developer, I enjoy following the advancement of UI/UX designs. My objective is to create Pixel-Perfect projects that are clean, readable, and high-performance. I am eager to develop and improve on my specialty area by performing tasks that I enjoy, with a sense of responsibility, and in collaboration.

PROFESSIONAL EXPERIENCE

Frontend Developer   02/2023 – present
PITON Technology
- Developed 4 different NPM modules using Vite and React, achieving a 40% improvement in performance during the initial stages of frontend projects.
